

Pet Monitor HACK

you need to know

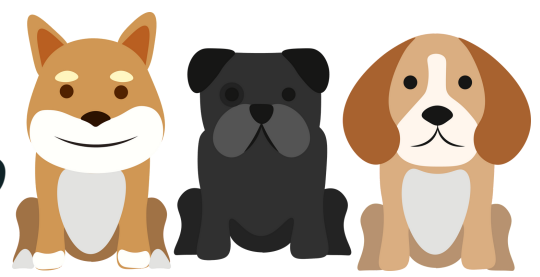

RESEARCH

Before setting temperature level,

Learn your location's Normal/Critical temperature & Humidity ranges

*Learn your Pet's Breed and Size
(Temperature tolerance is not same)*

SAVE BATTERY LIFE

Customise your

***ALERT INTERVAL DURATION
&
REMINDER ALERT DURATION***

'Higher the duration, Longer the Battery life'

*Charge your Device once in a month
when not in use*

GET ALERTS! NOT ALARMED

Did you know you can enable the alerts you need & disable the rest?

- Temperature/Humidity
- Power Loss/Back
- Network
- Geofence
- Battery life
