

# 4 REASONS

NOT TO FEED NUTS TO YOUR  
POOCH

## 1 CONTAINS TOXIN

Beware of macadamia nuts, walnuts & black walnuts

## 2 HIGH LEVEL OF FAT

Lead to obesity and other health problems if consumed in large quantities!

## 3 GASTROINTESTINAL PROBLEMS

Almonds and pecans can cause blockages in a dog's digestive system if not broken down properly.

## 4 VISIBLE ALLERGIC SYMPTOMS

Some visible symptoms like itching, redness and swelling in dogs can be witnessed.

ASK YOUR VET BEFORE YOU TOSS  
NUTS TO YOUR PET!
