

5 TIPS FOR BATHING YOUR DOG

1 Use a dog-specific shampoo

Human shampoos can be too harsh for dogs and may cause skin irritation. Go for a dog-friendly one

2 Protect their ears

Water and soap can enter your dog's ears and cause infections. Use cotton balls to protect their ears while bathing.

3 Use warm water

Use warm water to make the experience more comfortable for your dog.

4 Use a non-slip mat

Use warm water to make the experience more comfortable for your dog.

5 Be gentle

Use a gentle touch when washing your dog, especially around sensitive areas like their face and ears.
