

7 must have features in a Pet Monitor

1. Pay only for what you use.

2. Sends real time alerts when temperature crosses a threshold limit.

7. Works on Cellular and not WiFi dependent.

3. Easy to use mobile apps for monitoring on the go.

6. Should work across a range of hot and cold temperatures.

4. Long-lasting and rechargeable battery.

5. Pet Monitor should have GPS tracking.
