

# 9 WINTER

## Pet Care Advice

### Keep your pet warm

- Ensure the place is warm and comfortable to sleep
- Provide a heated bed or pad to sleep indoors
- Give coat or sweater for small or thin fur pets

### Protect their paws

- Frigidness causes your pet's paws dry and cracked
- Use palm balm and moisturize
- Wipe their paws off to remove ice, salt, or other tiny particles

### Keep them hydrated

- Dehydration occurs in winter
- Provide plenty of fresh water
- Add some low-sodium broth or ice cubes to their water bowl

### Have a Pet Monitor

- Winter brings frostbite to pets
- Prevent it by using Waggle Pet Monitor
- Get real-time alerts when temperature/humidity goes unsafe

### Exercise your pet

- Winter is not an excuse to skip exercise
- Take your pet for a walk or play with them
- Provide toys to keep them active

### Keep an eye on their weight!

- Staying too much indoors can cause weight gain in pets
- Feed a balanced diet to prevent weight gain
- Ask your Vet for guidance

### Groom your pets

- Brush your fur friend to prevent matting & tangles
- It prevents hairballs & keeps skin sleeky
- Bath them every week for a clean & healthy coat

### Beware of Antifreeze

- Tastes sweet & Highly toxic to pets
- Keep it out of reach
- Immediately clean up the spills

### Take care of your pet's health

- Take care of old and pre-existing health condition pets
- Cause behavior changes in appetite, lethargy, or go uncomfortable
- Consult your Vet immediately

Follow these tips to keep your furry friend healthy & happy throughout the Winter
