

PET FIRE SAFETY TIPS

1. Pet-proof your house and keep hazards like electric wires, and cables which may cause electrocution away from their reach.

2. Use cement or stainless food bowls if they will be left outside in the sun.

3. Use flameless candles instead of those that needs a wick.

4. Install a temperature monitor to get alerts whenever the temperature increases.

5. Know where your pets hide when they are scared.

6. Remove stove knobs when your pets are alone in the house.
