

How to Bathe a Cat?

Brush your cat

Brush your cat well to detangle fur and remove loose hair for easier bathing.

Use Lukewarm Water

Fill the tub with a few inches of lukewarm water, as cats are sensitive to temperature.

Shampoo Gently

Apply cat-friendly shampoo away from the face, ears, and eyes, massaging gently.

Rinse Thoroughly

Pour water with a cup to rinse all shampoo from your cat's fur, preventing skin irritation.

Dry Off

Wrap and pat your cat dry with a towel; use a low-heat dryer if possible.
