

How to Groom a Dog?

1 COMB HEAD TO TOE

Brush short-haired dogs weekly and long-haired dogs daily, using the appropriate brush type for their coat.

2 RINSE THOROUGHLY

Use gentle shampoo, and lukewarm water; lather from neck down and rinse thoroughly.

3 NAIL TRIMMING

Regularly trim just the tips with dog nail clippers to prevent discomfort and promote good posture.

4 EAR CLEANING

Inspect for dirt or odors; use vet approved cleaner with a soft cloth. Avoid inserting into the ear canal.

5 TEETH BRUSHING

Use dog-specific toothbrush and toothpaste; brush gently in circles. Start slow if it's new for your dog.
