

How to Potty Train a Puppy?

Start training Early

Start training immediately; 2-month-old puppies can only hold for 2 hours!.

Establish a Routine

Take your puppy out in the morning, after meals, and every 2-3 hours.

Designate a Potty Spot

Always take your puppy to the same spot to help them learn their potty area.

Use a Command Word

Use clear, consistent commands like Go potty to build an association.

Positive Reinforcement

Reward your puppy with treats or praise to reinforce good behavior.

Crate Training

suitable crate size prevents soiling and aids potty training.
