

# How To Keep My Dog Off The Furniture?

## Set House Rules

Consistently enforce clear boundaries for your dog, such as designated dog beds and some patio furniture.

## Teach "Off" Command

Train your dog to leave furniture with the "off" command, using treats and praise for compliance and reinforcement.

## Block Access

Use pet gates, cover furniture, apply deterrents, and leash your dog to restrict unsupervised furniture access.

## Set Pet Spots

Place dog beds adjacent to furniture, add comforting scents, and encourage with praise and treats.

## Utilize Resistant Covers

Shield your furniture with durable covers that resist pet hair, nails, and dander for mess-free comfort.
