

How To Keep Dogs Off Couch?

Dog Bed Training

Place a bed near the couch and reward your dog with treats for using it, using the cue "Go to your bed."

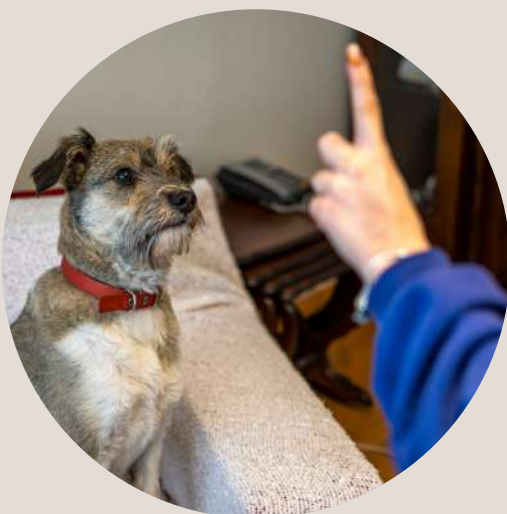

Couch Blocking

Place books, or baskets and cover with sheets. Add cardboard on cushions; praise your dog for compliance.

Train "Off" Command

Say "off" and guide your dog down from the couch, then reward with praise and treats for compliance.

Restrict Room Access

Block rooms with gates or doors. Provide toys, water, and ensure ample playtime to prevent boredom.

Use Pet-Safe Sprays

Use anti-chew sprays to prevent jumping. Check for non-toxicity, test on hidden spots, and reapply regularly.
