

How Do You Stop Dogs From Fighting?

Stay Calm

Keep your composure during a dog fight and assess the situation before acting.

Avoid Physical Contact

Don't separate fighting dogs by hand; use safer methods to prevent injuries.

Use Loud Noises

Interrupt fighting dogs with a loud clap, banging, or whistling to potentially stop the altercation.

Use Water or a Blanket

Spray water or drape a blanket over fighting dogs to safely interrupt and separate them.

The Wheelbarrow Method

Lift the dogs hind legs like a wheelbarrow to limit movement and regain control.
