

# Keep Your Pets Comfortable & Safe

## 1. Charging Waggle Pet Monitor

Once the Waggle is plugged in, the Waggle LED will glow RED.

Waggle takes 7 - 8 hours to charge fully.

## 2. Install App

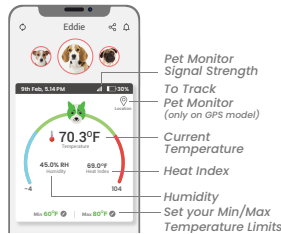

Scan the QR code below to go directly to the Play Store or App Store.

iOS

android

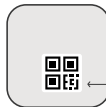

Note : To change your app's default home screen.

Settings → My Home

## 3. Register

- Open the App and Click on 'Register Product'.
- Follow on-screen instructions to register your waggle using the QR code on the back of the product.

Find the QR Code on the back of the product.

## 4. Get Subscription

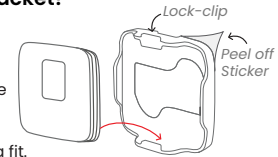

- Once you have registered, Click "Activate" from the Safety Dashboard.
- Once you purchase a plan, it will take up to 24 hrs to active your Pet Monitor.

Once the payment gets done, you can start monitoring your Pet's Environment Temperature in real-time.

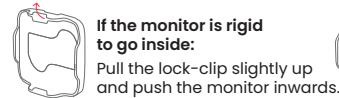

**Important** When your Waggle is not in use, we suggest charging it once a month to maintain good battery health.

## How to Attach the Mounting Bracket?

- Step 1:** Peel off and stick the mounting bracket in your RV.
- Step 2:** Place the monitor's bottom inside the bracket.
- Step 3:** Push the monitor's head gently and check for the click for a snug fit.

## You May Face it

If the monitor is rigid to go inside:

Pull the lock-clip slightly up and push the monitor inwards.

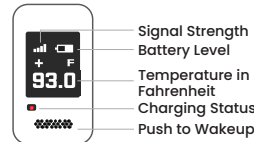

If the lock-clip is not locked properly:

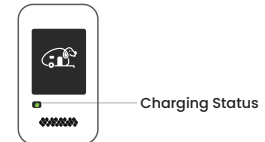

Press lock-clip gently downward ensure it is locked.

**NOTE :** Avoid placing your Waggle Pet Monitor close to appliances like oven, AC air outlet, etc. It may give you incorrect readings.

## Pet Monitor -GPS vs Lite

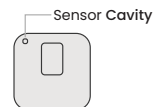

Pet Monitor -GPS

Pet Monitor -Lite

**CAUTION** The Sensor cavity should be maintained free and clear of any dust, moisture or other objects. If the sensor cavity is covered or blocked or filled with small particles then it may not sense the ambient temperature/humidity accurately.
